

Please do not overturn my state's (NJ) do not call list. This was enacted by our state legislature who represent New Jerseyans. Unless I'm mistaken, a state law may be more strict than the federal law but cannot be less strict. That is what has been done in NJ. I know this policy holds true for drug and DEA statutes so I'm not sure why the FCC would be any different.

Since the enactment of this law I have finally begun getting peace at home and have almost begun answering the phone in the evening again. Given the adverse quality of life of living the most densely populated state in the U.S. with one of the highest costs of living, this law has improved the lives of all New Jerseyans. Anyone who feels that having invasive, unwanted calls does not affect their quality of life does not have to put their name on the Do Not Call list.

Thank You.
